

The human touch to your web communication

**An efficient, powerful and valuable tool for your branch organisation:**

- To do market research (e.g. stimulate and observe discussions)
- To involve your members in product and service envelopment
- To generate worth-of-mouth advertising
- Advice and inform your members about specific topics such as working conditions and working facilities.

By customizing this unique software to your specifications, you expand your member base and build a lasting relationship.

**Just a few benefits for members to join your branch organisation community:**

- Search information about different topics
- Ask questions, get answers
- Discuss topics
- Connect people to exchange information via chat and video channels

**Operate a complete web community under your own brand.**

**To strengthen your organization and improve the connection with your members. The present and the future ones.**

**You provide the content. Together we build your community.**
