

The human touch to your web communication

An efficient, powerful and valuable tool for your health organization:

- To do market research (e.g. stimulate and observe discussions)
- To give information about specific health topics
- To harvest the extreme client loyalty
- To generate worth-of-mouth advertising
- To bring all the players around the specific health topic together (doctors, patients, therapists etc.)

By customizing this unique software to your specifications, you expand your client base and build a lasting relationship.

The benefits for people to join a Health community is to:

- Find high-quality information which is understandable by laymen
- Ask questions, get answers
- Discuss topics
- Patients find doctors / specialists / clinics
- Doctors / clinics find patients
- Giving and viewing of ratings
- Connect people to exchange information via chat and video channels

Operate a complete web community under your own brand.

To strengthen your organization and improve the connection with your clients. The present and the future ones.

You provide the content. Together we build your community.

Take a look now on www.csv-networks.com/village.php for more information or how to order this great software.
